Introducing TheyFit™, the world's first sized-to-fit condom line in 70 custom-fit sizes for maximum pleasure & safety.
To find your ideal condom, follow the instructions below to measure your Johnson and identify your custom size.

INSTRUCTIONS:

1 Cut on dotted lines to remove and separate alphabetical length measurement from numeric width measurement.

2 Crease length measurement strip down center to create a V-like shape. Place erect penis down center only as far as condom would unroll to find your letter.

3 Next, wrap numeric fit strip around middle of erection to find your corresponding number.

WHAT TO DO NEXT:

Refer to the Fit Kit Chart below to find your individual condom size! Your custom fit is shown where your alphabetical length row meets your numeric width column. If you find that your size has an arrow in the box, follow the arrow to the next best size. If your size box is empty, please call us for additional assistance.

Please note: your "custom size" as determined by this Kit is a suggested size. You may want to choose a slightly different size based on your individual preference.
